2.4GHz Wireless Transmitter

Experience unparalleled quality with ARG's 2.4GHz Wireless Systems which offer 14 channels of CD quality sound and up to a 300 foot transmission range (Line of site). ARG's 2.4GHz transmitters (ARG-2.4T) are ultra-compact and can be easily mounted behind a flat-panel television. These transmitters feature both analog and digital inputs which eliminate the need for expensive add-on converters, adjustable audio output and noise reduction technology while delivering robust sound with minimal interference. Easy to install and operate.

ARG-2.4T Technical Specifications

Dimensions:	4.33" H x 2.68" W x 1.00" D
Weight:	2.98 Oz
Color:	Black with yellow face
Features:	Lightweight, compact design 14 simultaneous channels Easy to install High fidelity audio Diversified audio inputs (analog Line-in, digital coaxial, and digital optical) Low or no audio notification
Display:	Red LCD Display
Frequency Range:	2.4000GHz – 2.4835GHz ISM
Frequency Spacing:	6.048 MHz
Frequency Response:	20 Hz - 20 KHz
Audio Sampling:	24 bit 48 KHz Stereo
Signal to Noise Ratio:	90 dB
Current Draw:	DC9V 200mA
Audio Input:	Analog Line In, Digital coaxial and digital optical
Transmission Method:	GFSK
Transmission Range:	300 Ft Line of Site
Warranty:	4 years parts
FCC Certification:	This device complies with Part 15 of the FCC rules. Operation is subject to 1) this device may not cause harmful interference and 2) this device must accept interference received, including interference that may cause undesired operation. FCC Regulations section 15.21 requires the user to comply with the rules of transmitter operation. Any changes or modifications made by the user not expressly approved for compliance may result in the loss of all privileges and authority to operate the equipment.
