

Fitness Entertainment PVS Universal Controller

Experience ultimate flexibility with ARG's new universal remote controller. This controller eliminates the need for a separate remote to operate cable/satellite system set-top boxes. Simply connect the ARG universal remote to your ARG TV, affix the infrared cable to your set-top box and enter the appropriate command code. Now you're ready to go! All functions are controlled by the ARG universal remote which means no more fumbling around with multiple controllers for your members and staff.
