

Talk & Listen® Wireless Audio 72MHz Mini Multi-Channel Systems

The Talk & Listen® 72MHz Mini System combines a small package with outstanding features. This system is 100% compatible with any of ARG's existing 72MHz bodypack systems, including old CSG systems as well as all other competitor's brands of 72MHz systems currently in use. The transmitter broadcasts a high-quality one-way audio signal to an unlimited number of receivers providing FM audio to each listener with a transmission range of up to 300 feet line of site. Each transmitter and receiver has a lithium polymer battery which provides hours of operation and utilizes smart charging technology to fully charge each unit in no more than two hours. With easy to read LCD displays, transmitters and receivers are easily programmed and ready to operate in minutes.

ARG Talk & Listen® 72MHz Mini Technical Specifications

Frequency Range	72.1MHz – 75.9MHz
Frequency Response	200Hz to 13kHz, +/-3dB at 1% max THD
Modulation	Wide-band FM, 75kHz pk
SNR	>70dB (typical) transmitted
Battery	Lithium Polymer 600mAh
Channels	17
Channel Spacing	1MHz

ARG Talk & Listen® 72MHz Mini Transmitter Technical Specifications

RF Output	5dBm, 10dBm, 15dBm
Audio Input	3.5mm mono Mic/Line
Power Consumption	3.7V40mAH
Operation Hours	up to 15 hours
Charging Time	up to 2 hours, smart charging
Weight	35 g / 1.2 oz.

ARG Talk & Listen® 72MHz Mini Receiver Technical Specifications

Receiver Sensitivity	-95dBm
Antenna	Headphone cable
Power Consumption	3.7V15mAH
Operation Hours	up to 40 hours
Charging Time	up to 2 hours, smart charging
Weight	34 g / 1.2 oz.
